

DOMINIC FOURNIER

With over 9 years of experience in frontend development, product management and design, I help teams transform complex challenges into intuitive and powerful digital products.

PROFESSIONAL EXPERIENCE

Cactusoft • *Lead UX Designer*

LAVAL, AUGUST 2024 TO PRESENT

- Identify and prioritize the main UX irritants
- Manage the visual modernization of a legacy Angular application
- Define robust UI guidelines and a standardization strategy
- Find the balance between technical constraints, accessibility, limited screen space, and complex business logic

Pinax • *Frontend Developer & Product Designer*

OTTAWA, OCTOBER 2021 TO AUGUST 2024

- Define objectives and key results (OKRs) and key performance indicators (KPIs) to achieve product objectives
- Collaborate closely with the Backend development team to establish implementation challenges and required API points
- Design, develop, and maintain the company's website and web application facilitating access to its Blockchain services
- Manage Agile projects, establish priorities, allocate tasks to the Frontend team, and guide junior developers

Oreus • *Co-Founder, CTO*

SHERBROOKE, JUNE 2021 TO DECEMBER 2022

- Establish the service offering, design the brand, the website and the strategic growth plan according to the company's finances
- Produce flowcharts, mockups, develop and deploy web tools for mortgage brokers

Fanslab • *Lead Developer*

MONTREAL, APRIL 2020 TO DECEMBER 2022

- Establish collaborative tools and structuring processes
- Develop the main functionalities of an event platform in 4 weeks (registration, presentation of guests and workshops, etc.)
- Coordinate the development team, lead the hiring process and ensure inter-departmental collaboration

Kontron • *Fullstack Developer*

BOISBRIAND, JANUARY 2019 TO APRIL 2020 (INCLUDING INTERNSHIPS)

- Develop and maintain 4 internal web applications using React, Firebase and the JIRA API and Convert an internal Wiki into a user guide

233, Place Rainville Beauport

Cactusoft • *Fullstack Developer*

LAVAL, SEPTEMBER 2017 TO DECEMBER 2017 (INTERNSHIP)

- Learn the basics of the profession; GIT, task management, writing automated tests, deploying new versions of the application, learning a web framework (Angular)
- Design and develop new user onboarding features

EDUCATION

École de technologie supérieure (ÉTS) • *BAC in Software Engineering*

MONTREAL, SEPTEMBER 2016 TO JUNE 2020 (INTERRUPTED)

I completed 72% of my training (104/143 credits), including three industry internships. I then chose to devote myself fully to my career, confident in the practical skills I had acquired.

Collège de Maisonneuve • *DEC in Computer Systems*

MONTREAL, SEPTEMBER 2013 TO JUNE 2016

Program focused on electronics and embedded programming (microcontrollers, web interfaces, networks, etc.).
